Namaste

The planetary shift is turning out to be quite an adventure this year. We are seeing signs of change politically, socially and of course spiritually. These are wake up calls. Each person is responsible to live

in integrity and take care of themselves by feeling their feelings and facing their shadow sides. This is a group effort, not for only a few. If we listen to our inner guidance, we will become aware of letting go of those things that no longer serve us. Many new beginnings and openings are happening this year and continue to accelerate us toward our true destinies.

Anette feels that the opening of our hearts is extremely important so we can more directly and consistently feel our Divine essence. She emphasizes that there are two main ways that will help us more easily transition. One is to "not be afraid to face our inner suffering and to always stay connected into our Divine Source." These monthly calls are a wonderful, easy way to support yourself in the comfort of your home, all you have to do is relax and just receive.

What Anette focuses on is to accept ALL of who we are and be present with What Is and not try to run or distract ourselves from it. In this Awareness, we will experience complete peace no matter what the outer circumstances.

Oneness Deeksha Blessing has come onto the planet now as a Way to accelerate this process. The Oneness Blessing is an energy transfer that creates a neuro-biological shift in the lobes of the brain, piercing through the veils/illusions of the mind so we experience stillness, peace and ultimate Oneness. Once transferred, these energies will not fade and will eventually help bring an end to our feelings of separation. There is no teaching, belief or philosophy. These Blessings support all Paths.

We are living in a very crucial time. There is a major shift for rewiring the Global Brain, the male and female sides. This is a big step in the ongoing transformation of the collective consciousness of Humanity. This step is very significant as it calls us to rise to a new perspective on Reality that will lead us in the direction of the experience of Oneness.

So please do join in! Participate in a way that is most comfortable for you.

Know that our time together is very vital as we hold a resonance that vibrates out to the planet, we are all part of this extraordinary transformation. We are making History!

ABOUT ANETTE:

After going through the Deeksha Course in 2003 at the Oneness University, Anette experienced a miraculous emergence through the doorway of consciousness. She now lives an Awakened life in a state of complete acceptance, presence and awareness of all that occurs in her life - experiencing each moment as it is without having to change it. No matter what the outer circumstances, she continuously feels peace and calm inside and is anchored in the feeling of connection to all things. She is also a mother of two children, runs an alternative health practice and travels around Europe sharing her story, teaching and singing. While at the University, she was given a special Gift that when she chants and speaks, the transfer of the Oneness Blessing is received either in person or over the phone.

Anette is internationally recognized in the press as "Sweden's answer to the Dalai Lama". She is the author of an acclaimed book, "From the Heart" where she shares her amazing story or transformation and answers profound questions posed by hardcore journalist., Eva. The book is now available on this website along with a DVD that has special guided meditations by Anette, a trip to the Oneness University and a Satsang in Sweden. She has several CD's as well that embody the Oneness Blessing energies through her melodic sacred chanting.
